VSPKJ/CIR-14/2021-22 Date 29/09/2021

Dear Parents,

Greetings!

Hope you all are safe and healthy.

This is to apprise you that as per the orders, the school is planning to commence off line classes for students of classes I to V from **Monday**, **4**th **of October 2021**. In light of the seriousness of COVID-19 pandemic, the school would seek permission of the parents for the same.

Teaching is so very human in essence. Human connection is hard to replicate online. The best teaching is face to face, say experts. But under the very trying circumstances that we have been through during the COVID-19 pandemic the schools have adopted and adapted to Blended learning – a mix of digital and face-to-face teaching. Now with the announcement for reopening of schools by the **Government of Rajasthan**, we need to put a few COVID-19 protocols in place to ensure the safety of our students and staff. Kindly note physical distancing and a minimization of direct contact between pupils will be encouraged in the school. Classroom layouts will be adapted. Windows will be kept open where possible, and any unnecessary furniture removed to optimise space. The school will ensure that pupils clean/sanitize their hands more often than usual, including when they arrive, when they return from breaks, and before and after eating. Assemblies are banned.

Here's what you can do to support your children with the complicated emotions they may be experiencing and ease them into the new normal at school—

- First of all, kindly provide a written consent for your ward if you wish to send them to school. Please download the **Consent/Declaration** form and send it with your ward on October 4, 2021.
- Transport facility will be available for students. Google Form link is being shared with you to know
 your decision so that necessary arrangements can be made depending on the number of students willing
 to avail transport facility. Kindly click on this link.

- Have an open conversation with your child about following COVID protocols in school.
- Talk to them calmly about some of the changes they may expect at school, such as needing to wear masks and keep a distance from their friends and teachers. Reassure them that these safety measures are in place to keep students and teachers healthy.

• One of the best ways to keep safe from COVID-19 and other diseases is to simply encourage regular

hand washing with soap or with a sanitizer.

• You can also show children how to cover a cough or a sneeze with their elbow.

• Wear full-sleeves clothes to minimize the interaction with any public surface.

• Please ensure that your ward comes to school in clean and sanitized uniform.

• Every student is expected to maintain personal hygiene by bathing, brushing and trimming of nails.

• Kindly pack nutritious home cooked food and clean water in the lunch box. Sharing of food and water

is not permitted in school when we are strictly following precautions to keep safe from Covid-19. The

School Canteen will **NOT** be operational.

• It is advisable that parents/guardians download the AAROGYA SETU APP and let their ward

commute only when the App shows safe and low-risk status.

• Self- monitoring of health by students and parents is essential. The student should not come to school

even in case of minor illness.
