Education is the tri-polar process School Parent and Child must interact actively to realize their optimum potential. VSPK firmly believe in drawing out the best as per every child's ability. For the purpose of meaning full education, it is imperative to know dhyself and create the world of Tagore's dream..... "Where the mind is without fear and the head is held high.....". VSPK is committed towards ensuring that each child grows into a responsible adult, endowed with a wholesome and balance personality comprising of proficiency in intellect integrity and efforts and fortitude in character.

VSPK International School is dedicated towards providing a rich stimulus that acts as catalyst for transforming the ordinary to extraordinary , at the average to genius and the resilient to courageous individual who is capable of uplifting the standards of collective welfare through optimum contribution as per the unique potential

bestowed upon each individual by the almighty.

VSPK's Rohini Campus established in 2003, was the realization of the dream that was inspired by respected Founding Father Late Sh. P.C. Guptaji. It is the relentless pursuit of the vision of creating and enriched educational environment that allowed VSPK Group to spread it wings from Rohini to Pitampura, Jaipur and Sonipat, I hope that with continuous motivation guidance and collaborative association between parents and administrators, adequately supported by a team of dedicated staff, we would create a chain of institutions that crosses National Boundaries to reach International Arena. We promise towards building a progressive learning ambience that personifies excellence and highest standards of educational training for mind, body and soul.

A school is not merely a building with furniture and staff, it is a place where characters are built and destinies are shaped with the students being at the centre of all initiatives and endeavours. The teachers influence the students thought process and value system. It gives me both pleasure and satisfaction that the staff and students of VSPK International School are performing their onerous duties and fulfilling their responsibilities with sincerity and commitment as Manager of this value-oriented Educational Institution. I am pledged toward's the improvement of the quality of class-room transaction, professional development of the faculty and creation of a safe and secure learning ambience where student engagement and participation in multiple activities is given highest priority as part of real life stimulation and experiential learning. Participation build confidence, challenges one's inner self, taps, taps unrealized potential, showcases talent and enables the student to learn in an enjoyable atmosphere. I wish that the academic staff lives upto the immense faith that is placed in us by society that expects Education to be a vehicle of change, progress and reform. I look forward to the continued support and partnership between parents and facilitators so that we can work together to inculcate right values and develop optimum potential of the future citizens of Global Community.

*“Success comes to those who work hard and stays with those, who don’t rest on the laurels of the past.”*

Our goal at VSPK is to provide an enriching, engaging, and challenging curriculum that will prepare students for the years that follow. We believe that students, parents, and teachers all play a vital role in helping students reach their greatest potential. Students are encouraged of the many resources and opportunities available to them including the library, computer labs, student council, Peer Buddies, team building activities, after school academic and athletic offerings.

We live today in a world that is so very different from the one we grew up in, the one we were educated in. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of Education. Our school value system stresses on making every child morally strong and enabling them to become a better citizen of tomorrow along with giving a multi facet exposure to the students. Quintessential values are instilled in them. Even though they are given wings to fly, yet they remain firmly grounded to their roots.

The school is inching every moment towards greater heights in the fields of academics, sports and extracurricular activities and also infrastructure.

We are proud to have our students selected for state National levels in sports. In addition to that our students are also securing ranking in various Olympiad conducted by different councils.

Our students have also bought accolade for music and dance where they were appreciate and awarded at zonal level competitions Amidst the era of changing scenarios we should focus on developing the next generation of entrepreneurs in school itself. So, building relationship, developing leadership and focusing on schools as the “Hub of our communities” would help in creating an environment where students are building a bright future both today and tomorrow. By looking at what worked in the past by looking forward to the future development, our community is more likely to be able to come together to create schools which are kids meet therefore I strongly recommend a holistic approach to empower and enrich our next generation to meet the challenges of life with enhanced life skills education so that they may grow into global citizens.

I have been thoroughly impressed with VSPK International School in Pratap Nagar, and there are two aspects that stand out for me.

Firstly, the staff's behavior and commitment to the students' well-being are exemplary. The teachers and administrators create a warm and supportive environment where students feel valued and encouraged. It's evident that they genuinely care about the students' growth, not just academically, but as individual. Secondly, the school provides outstanding sports opportunities. The emphasis on physical fitness and a variety of sports programs is truly commendable. My relative has benefited immensely from these opportunities, developing skills, discipline, and teamwork. It's great to see a school that values both academics and physical health.

I feel the school focuses on the all round development of the child and not just academics. It makes children more confident and versatile in public life. It provides a suitable platform to develop own skillset and interest area. As someone who loves sport I feel that vspk school has one of the best facilities in campus for tennis, football, cricket and swimming. My best wishes to the management and faculty of VSPK INTERNATIONAL SCHOOL.
